the best residential & commercial awning systems under the sun

Retractable Fabric Awnings for Patios & Windows • Aluminum • Entrance Canopies • Backlit Illuminated • Motorized/Manual • Custom Graphics

backlit illuminated

Backlit illuminated awnings brighten up your street presence, advertise your business and create an inviting entrance for your customers.

custom A-frame

Stationary A-frame awnings dress up your building or business at reasonable costs. Available with or without down lights.

custom graphics (SGS)

Sunbrella Graphics Systems is a new graphics application that allows pressure sensitive, vinyl cut graphics to be heat-sealed onto acrylic fabric. Ideal for business logos.

custom entrances

Enhance the look of your building while protecting visitors by adding a custom entrance. Our canopies offer the best in quality and design.

custom enclosures

All weather protection for all types of enclosures-covered with weather proof fabric. Protects people and products from the elements. We can fabricate any shape or size.

retractable

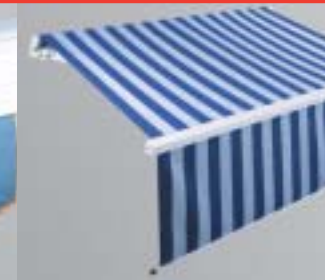

- Awnings expand your living space.*
- Awnings filter up to 98% of harmful ultra violet rays.*
- Used with air conditioning, awnings can save up to 25% in energy costs.*

cassette hood

Sleek and compact, the elegant design of the cassette hood gives additional value to every house, but also, ideally protects the fabric and the mechanism from the elements.

retractable/drop valance

The special front bar with separate telescopic valance, avoids glare, protects you from the low setting sun, and maximizes your privacy.

adjustable pitch

The tilting-pitch control is the centerpiece of every Sunrise 2000 awning. It sets the front bar to the preadjusted position when the awning extends.

motorized remote

With a motorized remote control, you can command your comfort around the clock with the touch of a button!
